

TWS-30

True Wireless Earbud

Manual

How to Use

1. The earbuds will automatically turn on and connect when they are picked up from the charging case.
2. Go to the Bluetooth settings on your device, search for the model "" and connect.

1. You can also press and hold the Multi-function Button for about 3 seconds or until the blue indicator flashes.
2. One of the headphones will flash red and blue alternately and the other headphone indicator will disappear.
3. Go to your device's Bluetooth settings and find the model to connect.

Note: After the headset has connected with the phone the first time, it will automatically connect to the last paired phone when turned on.

Triple Tap right ear

Charging

1. To charge the headset put both earbuds in the charging case. The blue LED light will indicate they are charging. The red LED light on the earbuds will turn blue once they are fully charged.

2. To charge the case, use the Type C cable to connect to a charger port. The case will flash red once it begins to charge. The red light will stop flashing and remain on, once the case is fully charged.

Note: The earphones will automatically shut down after 5 minutes without any pairing.

To reset: If the headset crashes, hold the power button for 10 seconds. The blue light will flash three times and the earphones will restart.

Warnings

A. Please do not treat this product with violence and keep away from high temperatures and high humidity environments.

B. Keep it away from WIFI routers and other high-frequency transmitting devices, this will affect the signal reception of the unit and cause the sound to become broken and disconnected.

C. Please use this product in the effective environment and there should be no physical blocking between the Bluetooth device and the earphone.

D. Please use qualified charging adapter to charge the case.
